SUBHASHREE G

Frontend Developer

Chennai | subhashree2439r@gmail.com | 9042443872 | linkedin | github | Behance

Professional Summary

Frontend Developer with **1+ year of experience** building **responsive web applications** using **React.js, JavaScript**, HTML, and CSS. Experienced in developing reusable UI components, integrating RESTful APIs, and **supporting MERN** stack applications. Skilled in creating responsive interfaces using Tailwind CSS and modern frontend development practices.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, RESTful APIs
Database: MongoDB (Basic), SQL (Basic)
Version Control & Tools: Git, GitHub, VS Code, Postman
Full Stack: MERN Stack

Work Experience

Frontend Developer

RR IT Solutions, Chennai
March 2025 – Present

- Develop **responsive web interfaces** using **React.js and JavaScript (ES6+)** for enterprise **CRM applications**.
- Build reusable and modular UI components to maintain consistency and improve development efficiency.
- Implement **real-time dashboards** to monitor **leads, customer records, and sales** performance.
- Optimize frontend code and component structure to ensure fast loading and efficient application performance.
- Convert UX wireframes and design specifications into functional and interactive UI components.
- Create responsive layouts using CSS3, Flexbox, and Grid for desktop, tablet, and mobile devices.
- Maintain consistent layout alignment, spacing, and typography according to design guidelines.
- Improve application performance by optimizing components and reducing unnecessary rendering.
- **Test UI components across multiple browsers** and screen sizes to ensure cross-platform compatibility.
- Integrate REST APIs with frontend components to display dynamic CRM data.
- Use Git and GitHub for version control, feature tracking, and **code collaboration**.
- Participate in Agile sprints and code reviews to support continuous development and improvements.
- **Work** closely with **backend developers and designers** to implement new features and UI updates.
- Debug and resolve UI issues and bugs identified during development and **testing phases**.
- Ensure clean code practices and maintainable component structure for easier future updates.

Associate Frontend Developer

Cloute Technologies Pvt. Ltd., Chennai
Jan 2024 – July 2024

- Developed responsive UI components using React.js, JavaScript (ES6+), and Tailwind CSS.
- Built reusable components for **HRMS and NGO web platforms** to improve development efficiency.
- Delivered **UI modules for the HRMS dashboard**, improving navigation usability.
- Implemented UI from wireframes and design guidelines to ensure consistent layout and structure.
- Created responsive interfaces compatible with desktop, tablet, and mobile devices.
- Improved application performance and achieved higher Lighthouse performance scores.
- Used Git and GitHub for version control and **collaborated** with team members during Agile development.
- Integrated REST APIs and supported **testing** by fixing UI bugs.

Education

Master of Computer Applications (MCA) - Bharathiar University - 2024
Bachelor of Science in Information Technology (B.Sc IT) - Bharathiar University - 2021

Projects

APD India NGO Website – Contribution Module

- Built a responsive **donation contribution module** using React.js and Tailwind CSS that allows **users** to submit **donations** and contributor details through an **online form**.
- Implemented **donor data management to store** and track contributor information such as **name, contact details, and donation records.**
- Integrated RESTful APIs to send, store, and retrieve donation data between the frontend and backend.
- Developed a donor list dashboard that displays contributor details in a structured table for easy monitoring by administrators.
- Designed a responsive UI so the donation system works smoothly on desktop, tablet, and mobile devices.

HRMS Dashboard

- Developed an **HRMS dashboard** using React.js to manage employee information such as **employee profiles, departments**, and role details within the organization.
- Implemented **employee listing, profile view**, and department modules to help **HR teams** easily **access** and **manage** workforce **data.**
- Added **search** and **filtering** functionality to quickly find employee records based on name, department, or designation.
- Integrated RESTful APIs to fetch and display **employee data dynamically within dashboard** components.
- Designed a responsive interface with tables, forms, and profile views to ensure clear data presentation across desktop and mobile devices.

CRM Dashboard Application

- Developed a **CRM dashboard** using React.js to track **customer records, sales activities, and business performance.**
- Implemented dashboard components such as cards, tables, and performance indicators to **display sales targets, completed deals, and pending reports.**
- Added dynamic filtering options to view data based on time period, sales team, or performance category.
- Integrated RESTful APIs to fetch and display real-time customer and sales data.
- Designed a responsive and structured UI to ensure clear data visualization and smooth navigation across devices.

Personal Projects

Zomato Website Clone (MERN Stack)

- Developed a **food delivery** web application using MongoDB, Express.js, React.js, and Node.js **(MERN Stack).**
- Implemented restaurant **listings, menu pages, and order interface** for browsing and selecting food items.
- Added user authentication and integrated RESTful APIs to manage **restaurant**, **menu**, and **order** data.
- Built dynamic and responsive UI components using React.js for smooth user interaction.

Library Management System

- Developed a **library management** web application using HTML, CSS, and **JavaScript.**
- Implemented **CRUD** operations to add, search, update, and delete book records.
- Used JavaScript **DOM manipulation** and form validation to handle user interactions and ensure data accuracy.
- Designed a simple responsive interface for easy book record management.

Certificates and Achievements

Master in UI/UX Design - Adoro Institute of Multimedia
